

## Box coolers with and without USAF™

Project: Passenger vessel Sweden, running during day, during night in harbor

Two sea chests with USAF™ and other sea chests without USAF™

Installation date: December 2015

Inspection Date: November 2016 ( after 11 months operating)

### Without USAF™ after one year running

### With USAF™ after one year running

**Conclusion: Two USAF's per sea chest will keep the complete box cooler free from barnacles and algae.**
